BYOBag Campaign

**Take the Family “Bring Your Own Bag” Pledge
- Shop Local - With Reusable Bags -**

“Change a habit and change the world”. We are encouraging Upper Township residents to get into the habit of using reusable bags, rather than single-use plastic bags that so many stores give away.

If everyone in Upper Township increases their use of reusable bags for shopping, together we could save millions of bags per year from harming wildlife and the environment we all share.

We urge residents to support the many UTBA local businesses endorsing the “BYOBag” educational program in Upper Township. Families are encouraged to take the “*BYOBag Pledge*” and make the commitment to reducing single-use plastic bags and to “bring their own bag.”

Use Reusable Shopping Bags

Commit to the BYOBag Pledge!

- **I pledge to:** Use reusable bags as often as possible (and to remember to bring them!) and to break the habit of single-use bags when shopping.
- **I pledge to:** Reduce home use of plastic and paper bags as much as possible, and to use already recycled and compostable plastic bags when possible.
- **I pledge to:** Help educate family, friends and neighbors about the environmental dangers of using and wasting single-use plastic and paper bags, and the importance of conserving fossil fuels and forests as much as possible.
